What We Learned...

Routines:

As we have been gaining mastery of our various locations of work, our routines for the various grade differentiations have been settling into place.

SPARK!

Each room participates in morning exercise together to help give our brains the boost it needs for better learning. A good reminder for us all to

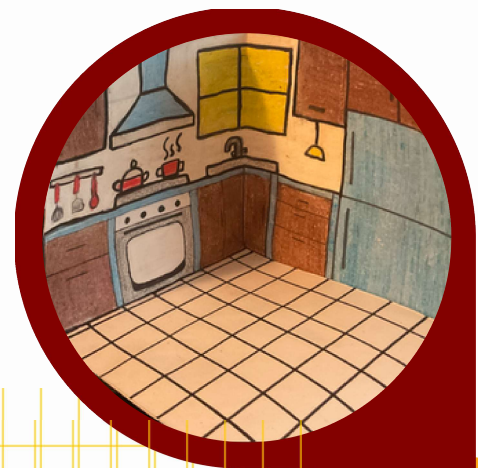

Upcoming Events:

Labor Day: No new assignments or meetings
.14- Independent Work Day After
after Lunch- All School- Required
21- Early Release After Lunch-
All School
October Outdoor Educations for
Grades 5-8- Details to Come

Under Construction: God's Still Working On Me

We are learning about the precious gift of Salvation and how nothing can separate us from God's love. Our theme song this year is "On Christ the Solid Rock I Stand". We continue to learn about God's amazing love.

Foundational Skill:

Growing Through Challenges

Last month, we explored how our students are “Under Construction,” building their lives on Christ, the Solid Rock. This month, we take the next step: learning how to grow when things get hard.

A growth mindset is the belief that abilities and understanding can improve with effort, practice, and perseverance. For our learners, this means challenges aren’t roadblocks—they’re opportunities for God to continue His good work in them.

Why This Matters for Our Students

When students face a difficult math problem, a confusing reading passage, or a moment of conflict with a friend, they are learning more than academics. They are practicing resilience, patience, and trust—skills that shape their character for life.

A Christ-centered growth mindset reminds them:

- God is still building them. Philippians 1:6 tells us He will complete the good work He started.
- Mistakes are part of learning. They don’t define us; they refine us.
- Effort is an act of stewardship. We honor God when we use the abilities He’s given us.

How Families Can Support Growth Mindset at Home

- Celebrate effort, not just outcomes
- Encourage children to talk about what they learned from a mistake
- Share stories of times you grew through a challenge
- Remind them that God is shaping their hearts and minds every day

Current Studies:

Grades 1-4: God’s Promises, Animals, Plants and Ecosystems

Grades 5-8: Salvation, Origins (Creation vs. Evolution), Early Civilizations, Place Value, Powers and Exponents, Factors, Adding Rational Numbers, Solving Equations
